**WEATHERBYS**  
**DNA LABORATORY**

## **HOMOZYGOUS TEST IN COLOURED HORSES**

Due to recent advances in molecular technology Weatherbys Ireland DNA testing laboratory can now offer a genetic screening test for the presence of the Tobiano Gene (Homozygous Test).

This test can be carried out using hair root or blood samples on both stallions or mares for the presence of this gene.

The Laboratory now also offers a genetic test for the presence of the Blue Eyed Cream gene (BEC) which may be of interest to Connemara Pony breeders.

For further information contact Laura at:
